NOVEL

PRAYER FOR UKRAINE

by Hryhorii Yaremenko

A high school administrator from the former USSR — a country of militant atheism — buys a cathedral for the Orthodox Church. The traitor, who brought the Ukrainian patriots, that considered him their friend, to the execution, is recognized as a hero and a scientist. In Ukraine, Moscow's vassals fight with fighters for the independence of the state, and in the churches of North and South America prayers for Ukraine are heard every Sunday.

The novel by Hryhorii Yaremenko tells us about all these and many other, at first glance surreal events, such as friendship and love that are stronger than time and circumstances, the search for truth in the darkness of delusion, a picnic that took place fifty years after an invitation to it.

THE PROPHETESS

by Andrii Kokotiukha

Policemen can also be imprisoned — for the sins of their colleagues. This is what happened to Serhii Horilyi. After being released from prison he returned to his native Konotop and had to start life from the very beginning. But all that he can do is to be a detective and now he has an opportunity to prove it. A local businessman complained to the police: a woman called a witch predicted his death. The man was laughed at — and he really dies. The investigation is led by a Serhii's friend, to whom the same prophetess also foretells death. And when this prophecy also comes true, Horilyi realizes: everything is serious. He does not believe in mysticism, seeks a rational explanation. But when there is only one step left to the truth, Serhii himself receives a deadly prophecy...

MONEY DOCUMENTS OF THE OUN (BOFONS) IN 1929–1954

by Oleh Klymenko

For the first time in the Ukrainian historiography the prior unknown material — bofons, money documents of the Organization of Ukrainian Nationalists (the OUN), was widely analyzed by means of the help of methods of special historical disciplines and were generalized in the monograph on the basis of study of the large set of documents. The stages of their evolution, social, economic and political functions and their importance as economic and historical sources are presented in this scientific research.

The military fund of the Ukrainian Military Organization (UVO) and that of the OUN dates back to the creation and development of the OUN. Bofons are impartial witnesses of the historical events of that time. They played an important role in the system of social and economic relations. Because of the different circumstances and conditions of the rebellious struggle, during the time of their evolution they went through a rather difficult way: from donation receipts to requisitional receipts.

AUTO-DA-FÉ

by Mark Korda

The events of the novel take place in Spain at the end of the 15th century, when King Ferdinand and Queen Isabella ruled, the country was liberated from Muslim rule and the persecution of non-believers increased tremendously. Ghettos for Jews and Moors were created everywhere, and on the outskirts of large cities, on the ominous “squares of fire”, secular officials, according to the decrees of the New Inquisition, burned unrepentant heretics alive. It was an era of desperate confrontation between cruelty and mercy.

The novel attracts attention not only with a sharp and dynamic plot, but also with interesting historical facts and thorough source material.

SECRET SOURCE

by Andrii Kokotiukha

Early autumn of 1981. Party and Komsomol activists are dying one after another in Ternopil region. Cause of death — they all drank spring water. And not an ordinary one: near the village where the bodies are found, there is a spring of St. Barbara. Local legend says that the water in it is magical. So he finds himself in the mysterious village of Haivoron, cut off from the big cities, where people live by their own laws and don't like people like him... "Secret Source" is a retro-style detective story which plot is mixed in Ukrainian Gothic. And also — a historical novel that takes the reader into the not so distant past. Anyone who remembers those times will remember how the Soviet empire collapsed. Those who hasn't witnessed these times by themselves, will understand why the Soviet Union fell apart.

DETECTIVE STORY

NETS 2.0

by Viktor Yankevych

This novel, like the first “Tenet”, the author wrote, passing through all the pain of those who became victims of human trafficking (children). I would very much like the reader of this book not to remain indifferent and understand how terrible everything is ... Viktor Yankevych, as always, reveals what society wanted to turn a blind eye to... His detectives are tough, but extremely true.

THRILLER

CARPATHIAN TRAP

by Serhii Ukhachevskyi

This story is based on the fate of real people and events that took place during 1941-1951 in Great Britain, the German Reich, Poland, and the USSR. The protagonist is Colonel Stepan Kryzhen, a Soviet spy who always plays his part: both fighting the Nazis, and becoming a resident of the MGB in Western Ukraine, and fighting the system in which he has to work. The multi-pronged espionage operations in Moscow's and London's offices lose their meaning when he comes into play. The book is written in vivid language, with humor, live characters and events that involve intrigue from the first words and lead to the last line.

LEGENDS OF UNCONQUERED WINTER

by Serhii Ukhachevskyi

The novel “Legends of Unconquered Winter” is a harsh and frank story about the events on and off the Maidan, about the little-known exploits of the insurgents and their lives, about the “heroes” of the anti-Maidan and its sponsors. Nobody wrote about the Maidan in 2013-14. The events of the novel take place on the streets and squares of Kyiv, in the Maidan tents, in the anti-Maidan tents, hotel apartments in Vienna and Paris, the government offices of Bankova and the Kremlin. And behind the events that are raging in the novel, there are other characters — politicians. For them, the Revolution is just a bargaining chip to achieve their own goals. And when the Maidan people volunteered to defend the integrity of Ukraine, the whole political group rushed to power...

ROGUES

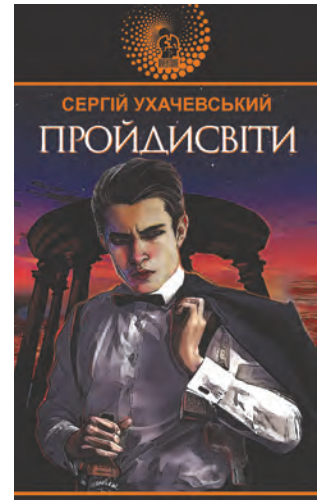

by Serhii Ukhachevskyi

Serhii Ukhachevskyi's cult novel "Rogues" was first published in 1994 and has been republished five times since then. Interest to this story continues to this day, because it is still extremely relevant.

This is not surprising. A novel was written in the early 1990s, during the years of the development of savage capitalism in Ukraine. This is a time when our state has changed, a time of law enforcement, bureaucracy and criminal arbitrariness, which resonates too much with the present. And also a time of courage and nobility — if we talk about the main characters of the book.

"Rogues" are shocking adventures, passions, risk, true friendship and revenge for justice. Heroes are waiting for distant lands, losses, disappointments and big money. Having started a dangerous game against the rulers and criminal authorities, they emerged Victorious. The book is written in easy language and, captivating from the first lines, is read in one breath.

SOMEONE ELSE'S GAME

by Serhii Ukhachevskyi

The novel is based on reliable facts, according to the operative data of the State Security Service, the tax police, court cases of various years, personal journalistic work that has not been published, materials of audits by the Accounting Chamber of Ukraine and confidential conversations with people close to the power and law enforcement structures. Actors are real, easily recognizable, sometimes brought together by the will of the author in a common stage field. Individual characters are fictional, designed to heighten the comedy or drama of situations. The novel also uses fragments of an unfinished novel by a late friend. During the work on the novel, law enforcement officers, tax officials, employees of the Accounting Chamber, and deputies provided significant assistance. Practically, they acted as consultants. However, at their request, for obvious reasons, I am not naming their names.

ROKSOLANA. UNION WITH THE JAGIELLONIANS: a historical novel in 3 books

Book 1

by Oleksandra Shutko

The novel covers the events in the life of the Ukrainian Roksolana (Hürrem Sultan) — the wife of Sultan Suleiman the Magnificent, which took place in 1540–1551, when she was at the zenith of glory and power. This woman had a significant influence on the policy of the Ottoman Empire. She mediated the Sultan's man to establish good neighborly relations with the Polish Jagiellonian dynasty, Queen Isabella of Hungary, her mother Bona Sforza, and her brother, King Sigismund II of Poland. The novel is based on Roksolana's love and diplomatic correspondence, archival documents, reports of European ambassadors in Istanbul, Ottoman chroniclers, and information from thorough investigations by Turkish, Polish, Ukrainian, German, Italian, and American historians. In the novel, not only the events and characters are real, but even their dialogues, which history has preserved to this day.

RUST ON THE BADE

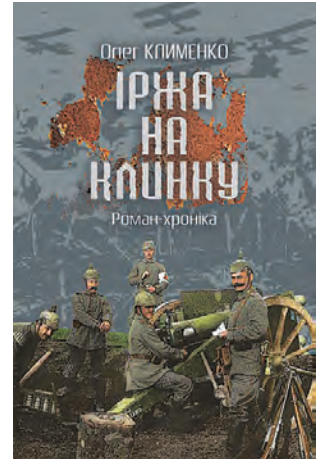

by Oleh Klymenko

In a novel-chronicle based on factual material, which is characterized by sharp plot, expressive literary techniques, the author reveals the confrontation and secret operations of the Entente and the Triple Alliance in the complex dramatic conflicts of the First World War (1914–1918).

The reader will find authentic, fascinating, twisted intrigue, swift as an avalanche in the mountains, and much, much more. The images of Emperor Nicholas II, tsarist generals, dignitaries are written psychologically accurate, all the nuances of their behaviour are transmitted accurately. Maybe they are bad — they used to think so, but they also had human faces, dreams, destinies. No one knows what their lives would have been like if they had taken a different path.

For a wide range of readers.

THERE, BEYOND THE RIVER ZBRUCH: in 2 books. Book 1 by Oleh Klymenko

The novel is based on little-known, dramatic historical events that took place both on the territory of Ternopil region in Ukraine and beyond on the eve and after the beginning of World War II, which inevitably invaded the peaceful everyday lives of millions of people. With the help of irony and sarcasm the author metaphorically exposed the images of then worthy Poland marshal Rydz-Śmigły, President Mościcki and other perpetrators of the September disaster. Along with them we see a gallery of Polish officials of provincial level, who flew up the career ladder in order to rule, to rob their own people and to be enriched. On the pages of the novel in acute and extreme situations we see mostly heroes with real names, that gives the novel a documentary certainty.

The second book gives us a broad panorama of dramatic events during and after the Soviet invasion of Western Ukraine.

The reader will not only meet the heroes of the first book, but will be able to follow their tragic lives.

KNIGHTS OF LOVE AND HOPE

by Lesia Romanchuk

Such a book was waiting for the part of Ukrainians whose spines were not curved, and such a book was not enough for those who are on the threshold of maturity. In this changeable, melting, uncertain time, in the period of total onslaught of democracy and greed, antisocial shifts and cynical substitution-change of the established principles of morality — we want support. It is not so much the stability of existence as belonging to the Knighthood of the Spirit, the feeling of a spiritual core that gives strength to resist injustice and rejection of the laws of evil. And we had that Knighthood and, fortunately, we have ascetics who jealously propagate its ideas and do not allow the spiritual connection of generations to be interrupted. This book is a martyrology of glorious names and deeds.

BLESSED IS HE WHO GOES. Book 1

by Lesia Romanchuk

This unusual novel, which has the characteristics of historical drama, life, philosophical parable — is full of adventure, spiritual search, the formation of the soul, the knowledge of the Lord's grace. This edition is the first in a series of novels by Lesia Romanchuk-Kokowska, inspired by sacred content. It is the first and only one about the first martyr Thecla — the patroness of Ternopil. The author accurately and accurately describes the life and customs of the Roman province in the time of Emperor Claudius, but not the blessed days when Thecla was pleased to feel the power of Christ's teaching inspired by Paul the Apostle.

FANTASY AND SCIENCE FICTION

CHILDREN OF TRANSGRESSION

by Natalia Savchuk

Somewhere in the depths of the family's memory, your primordial world, your Seven Worlds, has been waiting for you for thousands of years. In those days, in proto-Ukrainian lands, man weighed little on the gods, human communities were ruled by sensitive guardians and herd larvae, and in the Wild Steppe dominated by poultry with serpents and Enemy children, who were known for werewolves and fierce corpses. But one day, out of love for her husband, the guardian gave birth to twins instead of her daughter, who has to inherit all her strength, giving her son tenderness. Thus, the "children of transgression" entered the Seven Worlds — half-sensitive, half-masculine guardians Vroda and Voloshko. The balance is disturbed. The Seven Worlds rolls from the warm palm of the Great Ma like that pysanka into obscurity. Does anyone stop? Will anyone stop? Natalia Savchuk managed to look into the incredible depth of Ukrainian myth and convey it to the reader alive and colorful, fragrant. The world of the Seven Worlds will captivate both JRR Tolkien's supporters and George Martin's fans. It will also be a revelation for readers who are in love with the living delicious Ukrainian language and mythopoetics.

XVIII All-Ukrainian exhibition-forum "Ukrainian book in the Odesa region": nominated in category "Children's world".

39th European Science Fiction Festival "Eurocon" (Dortmund, Germany) nominated for "Chrysalis".

In 2015 author was awarded the Volodymyr Rutkivsky Jury Prize for her contribution to the research and popularization of children's books in Ukraine.

TREES ON THE ROOFS

by Oleksandr Vilchynskyi

The special feature of the fiction by Oleksandr Vilchynskyi is the presence of rich autobiographical material in his text, which due to the specific author's manner and means becomes more universal and understandable for the wide readers audience. The author works with the material taken from everyday life, making from it an interesting story, which can be easily perceived by the reader inspite of his cultural background.

The novel "Trees on the Roofs" by Oleksandr Vilchynskyi is an emotional story, told from the first person like sort of diary or confession. The characters are depicted as the contradictory persons. From one side, these men are active and enthusiastic, and the reader can like them, but from other side they are crossing the lines of ethics, behave arrogantly and aggressively, making readers less adherent to their personalities. "Trees on the Roofs" is the metaphor that underlines the multileveled nature of the contemporary society and culture, which can make the human loose his personality or feel disappointed and empty.

The novel does not teach, it tells the story of the human, and sometimes it is the hardest point to tell the story of ordinary man, which is not the outstanding person, not exclusively talented or determined. The character feels lonely in the limited environment of small world he lives in. This story doesn't give any answer, it creates a psychological landscape which attracts readers with its recognizable elements that are not exclusively related to any specific culture, nation or country.

DISPOSABLE LVIV

by Lana Perlulainen

“Barely noticeable markers of time in the writer’s prose are in details. Whether these are old memories or completely fresh traces — you can’t guess, because the prose is of one artistic level. Lana’s poetry still has a reaction to events, reflections, while prose is characterized by Scandinavian calmness on the background of intonationally rich voices of people. You can’t call them characters — they belong to the real world, the flesh of the flesh of which is the author herself” — that’s how the short prose of Lana Perlulainen was characterised by prominent Ukrainian author Halyna Pahutiak. The collection “Disposable Lviv” includes stories and miniatures of different years. For connoisseurs of intellectual prose.

BRICK: FAVOURITES

by Taras Fediuk

“Brick” is a collection of chosen poetry written by one of the most important Ukrainian poets of XX-XXI centuries Taras Fediuk.

The book contains poems written over the past fifty years, from early, somewhat naive lyrics to new ironically skeptical texts.

Dialogue with memory, the search for one’s land, escape and the impossibility of escape are the main motives of Fediuk’s poetry.

“Brick” is like a cornerstone, like a wall with worn-out frescoes, barely shining in the sun, like clay from which the world is sculpted.
