Rudyard Kipling

The fairy Rudyard Kipling's trilogy tells its readers about the lovely modern Neolithic family — Tegumai Bopsulai; his wife, Teshumai Tewindrow; and their spoiled daughter, Taffimai Metallumai, but we can call her "Taffy". The stories "How the First Letter Was Written" and "How the Alphabet Was Made" came about from Taffy trying to be helpful in getting a message to her mother while she and her Daddy were out hunting, which turned into a bit of a mess, so they decided to create the alphabet to prevent any more mishaps. And in the third story Taffy learns what taboo is. Kipling wrote "Just So Stories" for his little daughter, Josephine, who tragically died at the age of of pneumonia. The three "Taffy" stories are really about the love between a Daddy and his daughter. All three books are illustrated by a talented Kyiv artist Volodymyr Shtanko, whose works were highly noted in Kipling Society in Great Britain.

THE CRAB THAT PLAYED WITH THE SEA

author: **Rudyard Kipling**

illustrator: **Volodymyr Shtanko**

...And again, the English Nobel Laureate will tell children a tale of a time when the world was young and green, and the Ancient Wizard taught animals to play. Since then, cows have been playing with cows and elephants with elephants. As for crabs, the first Crab played with the sea — and that's where all this quirky, witty and a bit bizarre story began, in which there was a place and stories about the tides, and all sorts of things. For children of preschool and primary school age.

THE BUTTERFLY THAT STAMPED

author: **Rudyard Kipling**

illustrator: **Volodymyr Shtanko**

“Here is a fairy tale for you, my dears. New and wonderful...”. This is how Rudyard Kipling’s story begins, mixed with Middle Eastern folklore and biblical stories. And although it is about the wise King Solomon and Balkis — Queen of Sheba, in fact before you is a real fairy tale — witty, funny and instructive, like all the stories from “Just So Stories”. Young readers will think about what is arrogance and what is wisdom, and together with small butterflies will destroy the huge water palace with all the gardens to restore it immediately. Colourful illustrations by Volodymyr Shtanko make the book especially unique. The book continues the series about Taffy and Tegumai. And although there is no word about the cave tribe, the attentive reader will find old acquaintances on its pages. For primary school age.

illustrator: **Vitoriia Dunaieva**

Markiiian Kozachenko, the main character of this book, couldn't even imagine what a great journey is waiting for him. But once a Cossack Mamai jumped out of an old portrait hanging in his room. And spun, spun. First, Markiiian got into the parallel time corridor of Ukraine, then — to Zaporizhzhya Sich, and from there — to Berestechko. During this journey, so many adventures fell on his clever head that you only have time to marvel, avoid bullets and sabers, get out of the dungeon of the ancient castle, discover the secret of the book of the monk Luke, and free Hetman Khmelnytsky himself. But when faithful friends are around, everything can be overcome. And at the same time — to change for the better. Now Markiiian understands well what the words: "The Cossack is not afraid of clouds or quarrels" mean.

THE LATEST WAR: SHORT STORIES

author: **Nina Fialko**

illustrators: **Nataliia Zaharchuk**

Children and war... Many writers bypass this painful theme. Nina Fialko dared to write a series of short stories in which she tried to reveal both the events themselves and the children's participation in the cycle of war in an accessible way...

Someone was barely touched by the war, someone was morally traumatized, and someone else was tested for humanity.

This book is not for children, but about the children of war, and although it is primarily addressed to adult readers, it is also intended for family reading.

ALICE THE BIRD

author: **Nataliia Holovach**

illustrator: **Nataliia Holovach**

There was a little girl Alice. No, not the one that fell into a deep rabbit hole — it was a completely different Alice. Our girl (it already happened) turned into... a bird. And so she lived, fluttering during the day between the clouds and seeking shelter for the night, until a number of interesting events took place in her life.

And it was thanks to these events that the girl became human again.

Is the word 'again' superfluous here? Maybe so. And she just became a Man. For the first time in my life.

reading is really interesting!

The series of books "Reading Is Really Interesting" was established to form and improve reading skills and to develop cognitive interests of the young readers. Reading these books gives children encouragement and support, makes them naturally motivated; their curiosity arises, they are full of enthusiasm and eager to learn. The main distinguishing feature of the series is that the texts have only one storyline and a small number of characters.

The books correspond to different levels:

Level 1 — I am learning to read (short texts, simple sentences);

Level 2 — I can read with someone's help (simple plots, simple language structures);

Level 3 — I can read by myself (more complicated figures of speech and vocabulary);

Level 4 — I read with pleasure (various genres and themes).

Good books invite you into new worlds.

Read every day and every chance you get!

THE TURNIP

A UKRAINIAN FOLK TALE,

retold by **Ivan Franko**

illustrator: **Art Studio "Agrafka"**

The project by the Art Studio "Agrafka" (Romana Romanyshyn & Andrii Lesiv, Lviv, Ukraine) with its magnificent paintings presents the well-known story in a new original way. No one can resist temptation to take off a case, in which "The Turnip" is so carefully 'dressed'; and be involved into a page-by-page process of pulling the turnip out! The prominent Ukrainian writer Ivan Franko's interpretation of the well-known story makes the book a remarkable treasure. In 2013 "The Turnip" was added to the list of "White Ravens" Catalogue, which is annually introduced at the Bologna (Italy) Children's Book Fair.

ALPHABET OF NATIVE HOME

author: **Halyna Kyrpa**

illustrator: **Svitlana Radchuk**

They say home is where your heart is. Quite often home can't be distinguished from native and beloved walls where a person grew in, where every detail is full of memories from bright old days as a child with colorful imagination and eyes wide-open. This book is about home, and one very special house, which has windows, that seem like huge eyes and a house itself reminds a giant dwarf in a tall hat. There are also beautiful terrace, where family can gather to spend time with each other and a porch, where the best view opens for sight — a flower garden and a yard, and also a bench, where every member of the family can fit. The Family is wonderful likewise. It consists of a mother, a father, a granny, an younger sister, a cat and an older sister, Antosia, who is also a narrator of the story. Every detail of her house is an alphabet of home, embellished by a fantasy of a child, which makes it full of joy, coziness, happiness and love.

EIGHT DAYS FROM THE LIFE OF CHIPMUNK

author: **Ivan Andrusiak**

Illustrator: **Hanna Osadko**

Ivan "Ivas'" Bondaruk is the main character and the narrator of the book. The story introduces readers to the life of Ukrainian middle school students with its struggles, humor and funny situations. However Ivas' is ready to prove his worthiness and one unusual friend appears in his life quite in time, when changes are the most needed. Mid-school novella written by Ivan Andrusiak and illustrated by Hanna Osadko is one of the most read pieces among Ukrainian pre-teenagers. PLASTICINE RIDDLES

text: **Hanna Osadko**

plasticine: **Hanna Osadko**

It's such a small blue book with round corners and soft as a pillow. In it all drawings are made of plasticine, therefore it is also plasticine. Hanna Osadko sculpted all those plasticine pieces, and wrote poems — riddles — for each drawing.

This owner is rude
He wants to take all the good!
And a grain and a loaf of bread
Everything is not hidden in a bag,
And pushes behind the cheeks... How?
It's the same trick, it's the same...

In addition to the peacock, there are sparrows, butterflies, squirrels, and bears in the book, and many others.

SEVEN-LEAGUE BOOTS

author: **Anatolii Hryhoruk**

illustrator: **Lesia Varkach**

Notable international literature authors are widely presented in Ukrainian children literature due to high interest in translation of those pieces, however poetry has much less luck, because of prose visible domination. To fill this unfortunate gap there are some translated and meticulously sorted poetry works collected in chrestomathies, like this one. The book compiler Anatolii Hryhoruk worked on this collection on international poetry pieces quite long, translating huge part of poems, trying to save the main meaning and author's style by using more word-for-word translation, but still, some poetries have more liberal interpretations according to language specialties.

Незвичайний народ — скіфи

Січові козаки-запорожці

Бджоли приносять на новому меду і навівають туди меду. Звідси, за повір'ям, і походить слово "медовий місяць".

Мед, як відомо, має чудові лікувальні властивості. Хворі від меду швидше одужують. Діти, які їдять мед, краще ростуть.

Спортсмени після виснажливих змагань на короткий час відновлюють свою силу.

Бджола дає нам також дуже корисне молочко. А це — прополис, віск, перу. Навіть бджолина отрута сприяє подоланню болю.

Ну й, напевно, бджоли, як невідомі тваринки, залічують рослини. Кожен з них щодня встигає навіщати до двох тисяч квіток. Це теж величезна праця на послугу, бо коли зав'яже на огорожі, помідорі, цибулі, гриби не заплітуть, то годі сподіватися навіть найменшого врожаю.

MR. CHEESECAKE AND A DOUBLE EASTER BREAD

author: **Svitlana Linynska**

illustrator: **Mariia Hrom-Vurlovska**

Holy Thursday is a special day for Mr. Cheese-cake. On this day, he, the best baker in the town of Yasne, bakes Paskas — Easter bread. He bakes a variety of Paskas — with raisins, candied lemons, nutmeg, cottage cheese, cream, and even saffron. And Mr. Cheesecake is especially proud of the large Paska that all the townspeople will enjoy at Easter! Of course, it turned out to be a success — but the problem is that while kneading the dough, Mr. Cheesecake was also telling a girl named Orysia about the importance of mathematics. And you shouldn't play jokes with maths!
